

Low-Carbon After-Life

MEETING AGENDA

Escuela de Ingeniería de Minas, Energía y Materiales. Universidad de Oviedo
C/Independencia 13, 33004 OVIEDO

Day 1: Tuesday March 7th, 2017

09:00	Welcome & introduction
10 min	Welcome address Universidad Oviedo – Jorge Loredo
10 min	Aims of the meeting – Grzegorz Gzyl (GIG)
9:15	Coordination session- WP3
10 min	Review of the work progress: Task 3.1. <i>Technical, legal and management STEEP/CBA analysis</i> - presented by Aleksandra Zgórska (GIG)
10 min	Review of the work progress / Future works within Task 3.2. <i>Pathways to market</i> – presented by Glasgow/Amin?
10 min	Review of the work progress / Future works within: Task 3.3. <i>Models for incorporating cooling into delivery system</i> – presented by David Banks (UoG)
10 min	Review of the work progress: Task 3.4. <i>Ownership, management and financial models</i> – presented by Aleksandra Zgórska (GIG)
30 min	Summary of WP3: Work progress with relation to workplan as in the technical annex, conclusions and key results - presented by representative of GIG (WP3 leader)
10:45	Coffee
11:15	Coordination session- WP1
10 min	Review of the work progress: Task 1.1 A new tool for heat transfer modelling in flooded mine workings – presented by Covadonga Loredo(UOVE)
10 min	Review of the work progress: Task 1.2 Quantifying important mixing processes presented by Neil Burnside/Adrian Boyce (UoG)
10 min	Review of the work progress: Task 1.3 <i>Demonstration of new tools on a system in development</i> – presented by Grzegorz Gzyl (GIG)
20 min	Summary of WP1: Work progress with relation to workplan as in the technical annex, conclusions and key results - presented by representative of UoG (WP1 leader)
12:15	Coordination session- WP2
10 min	Review of the work progress: Task 2.1 Preventative strategies for ochre clogging – Task Leader: Anup Athresh (Alkane) , Presented by representative of Alkane
10 min	Review of the work progress: Task 2.2 Closed-loop strategies for oxidised, ochre-precipitating mine waters – David Banks (UGLW) , Presented by representative of UGLW
20 min	Summary of WP2: Work progress with relation to workplan as in the technical annex, conclusions and key results - presented by representative of UOVE (WP2 leader)
13:30	Lunch (UOVE)
15:00	Coordination session- WP4
10 min	Review of the work progress: Task 4.1 Pilot implementation at Markham site (UK) –presented by Anup Athresh (Alkane)
10 min	Review of the work progress: Task 4.2 Pilot implementation at pilot site in Asturias (ES) – presented by Adrián Peña (Hunosa)
10 min	Review of the work progress: Task 4.3 Pilot implementation at pilot site in Bytom (PL)- presented by representative of Armada/GIG
30 min	Summary of WP4: Work progress with relation to workplan as in the technical annex, conclusions and key results - presented by representative of Alkane (WP4 leader)
16:00	Break
21:00	Official dinner (courtesy of HUNOSA)

Universidad de
Oviedo

Low-Carbon After-Life

Day 2: Wednesday March 8th, 2017

09:30	Coordination session- WP5
20 min	Review of annual reporting process with an outlook to final reporting - Aleksandra Zgórska / Grzegorz Gzyl (GIG)
30 min	Discussion on gaps and solutions to be adopted
10 min	Final conference draft agenda– Grzegorz Gzyl
10:30	Coffee
30 min	Discussion on final conference details and planning (30 minutes)
30 min	Discussion on progress of scientific papers (10 minutes)
30 min	Closing remarks & to do list
13:30	Lunch (UOVE)
16:00	Proposed visit to Mining Museum (Arnao, Avilés)
